SEAGATE

Job Title: Global Operations IT - Intern

About Our Group

Seagate's Global Factory Information Technology (GFIT) organization is a global team with resources around our high tech manufacturing sites located in the United States, Asia, and Northern Ireland. We're a global organization servicing the IT needs of R&D, Engineering, Manufacturing and Equipment management for Seagate Global Factory. The Penang GFIT team is a key development hub that provides world-class application development and solutions with cutting edge technology. Our team embraces Scaled Agile Framework (SAFe), a popular framework that improves project delivery, decreased time-to-market, and increased stakeholder value. Our team is one of the pioneers to adopt various tools and languages striving toward IT 4.0

About the Role – You will:

- Work closely with the highly-skilled developer and motivated multi-site Agile team on the project assigned
- Involved in development, implementation and support applications for Seagate manufacturing and R&D facilities
- Develop well designed, testable, efficient code by using industry-standard software development practices
- Collaboration among team members, Scrum Master and Product Owner

About You

- Top-notch programming skills and in-depth knowledge of modern HTML/CSS
- Familiar with at least one of the following programming languages: Java, .NET C#, PL/SQL, Javascript, Angular
- Adequate knowledge of relational database systems. Preferably Microsoft SQL or Oracle SQL
- Enthusiastic and collaborative, Self-motivated, independent and a team player with strong analytical and debugging skills
- A successful candidate should have strong teamwork qualities as well as communication and interpersonal skills to work effectively in a cross-functional team environment
- Bachelor's and/or Masters' degree in Computer Science/Information Technology or equivalent major

You May Also Have:

- Experience representing a multinational corporation
- Worked with larger-scale corporations

Location: Penang, Malaysia

Our Penang office is located in Suntech at Cybercity. Easily accessible from two bus stops, many employees take mass-transportation to work. Ample free on-site parking is also available. Enjoy our on-site gym, test your ping-pong skills, or take on your colleagues in a badminton match after work. You can grab breakfast, lunch and coffee at our on-site cafe. Prefer to eat off-site? The public food court across the street offers many delicious options. Our Absolute Privilege club also offers Seagate employees deals for discounted food, beverages and services.
