UOB Innovation Hub 2 | IT Graduate Program

Shaping the future of banking technology

UOB Innovation Hub 2—IT Graduate Program
Shaping the future of banking technology

About UOB & Innovation Hub 2 (IH2)

United Overseas Bank Limited (UOB) is an esteemed banking institution in Asia, with a global presence spanning 19 countries and territories. With over 80 years of history, we uphold the values of integrity, innovation, teamwork, and commitment in all aspects of our operations.

UOB Innovation Hub 2 (InnoHub 2), located in Kuala Lumpur, is our technology center focused on delivering cutting-edge financial technology solutions to the Bank

About UOB IH2 IT Graduate Program
Shaping the future of banking technology

The UOB IT Graduate Program aims to
1. Nurture the growth of the next generation tech specialists and leaders in UOB Innovation Hub
2. Supporting the development of critical banking applications

Program Overview

Classroom training (Up to 3 months): Intensive curriculum centered around the Bank and relevant skills for your associated domain.
You will be mentored by an assigned experienced buddy and your manager

On-the-job training (Next 12 months):
You will participate in and contribute to projects that directly impact the Bank's technology agenda. Throughout this time, you will receive continuous support from buddy and manager

Domains still hiring for 2023

Program Highlights:

Technical Training and Mentorship: Throughout the program, you will receive technical training, on-the-job coaching, and mentorship from our experienced Master Trainers. You will have the chance to work side-by-side with senior staff, gaining real-world development experience and progressively increasing responsibility.

Agile and DevOps Practices: You will learn to apply Agile and DevOps practices to your work, ensuring efficient and effective project delivery. These methodologies will enhance your skills and enable you to contribute to the bank's technology transformation efforts.

Career Placement: Upon successful completion of the program, you may be offered a permanent placement aligned with your skills and career aspirations at UOB Innovation Hub 2.

Recruitment process

Stage 1—Application
Send in application and answer a few simple questions

Stage 2—Pre- screen assessment
Shortlisted applicants will receive invitation to fun online assessment on numerical and logical capability

Stage 3—Hiring manager interview
Shortlisted applicants will be invited to a digital interview assessing fit and skills

Stage 4—Hired!

Criteria

Education: A bachelor's degree in Computer Science, Technology, Engineering, or a related field

Experience: No prior experience necessary. Familiarity with programming languages such as Java, Python, C, or SQL is a bonus but not essential, as comprehensive training will be provided

Qualifications: Additional professional/technical qualifications will be advantageous but not mandatory.

Timeline

April—August: hiring ongoing
