

UI/UX Designer Intern

Pantas is transforming how businesses measure, manage and disclose their carbon emissions. We are setting a new standard in carbon accounting for enterprises.

We are looking for a UI/UX designer intern to improve the user experience and streamline the user workflow. You will research and conduct testing to better understand users' needs and workflows. You will refine the layout and presentation of the websites.

You will join a talented, mission-driven team to revolutionize the carbon market. This is an opportunity to be exposed to the latest technology in Climate tech and engage with industry experts and participate in meaningful change that will transform current processes in green technology.

Why Pantas?

Pantas is a newly formed tech startup founded by 3 Malaysians with a combined work experience of over 30 years in Finance, Hedge Funds, Investment Banking, Management Consulting, Software Engineering and Startups in New York City. Their track record includes the successful sale of a data analytics startup to Bain & Company (US).

Pantas' investors include VCs based in Silicon Valley, private equity and hedge fund investors based in US, Europe, Hong Kong and Singapore and one of the largest conglomerates in Southeast Asia.

Pantas operates like a US-based startup and offers its team members a sense of ownership regardless of rank. It is a fast-paced organization with a flat management structure that focuses on enabling its team members to succeed in their careers.

About yourself, big picture:

- Functional designs excite you and you want to do something meaningful and transformative with UI/UX
- You are positive, self-driven and hungry to learn
- You understand the power of collaboration and thrive in a team environment

As a member of a highly energetic and passionate Pantas engineering team, the exciting things you will get to do:

- Improve users' day-to-day workflow and enhance features discoverability with UI/UX principles (strong information hierarchy, grouping of similar items and easy navigation)
- Elevate the platform for maximum visual impact with beautiful imagery and clear messages and benefits

- Collaborate closely with the business development and engineering teams to refine the user interface (UI) and improve the user experience (UX) of Pantas

What you'll need to succeed:

- Completed at least first year of a Bachelor's Degree or Diploma in any related discipline
- Good at developing effective user flow and wireframe as UI mockups and prototypes to illustrate and explain the various functions and features
- Focus on visual design and create UIs that consider the best possible user experience
- Familiar with fundamental UI/UX design principles
- Passionate in creating user centric design and willingness to learn
- Have an eye for visual design and strong problem solving skills
- Proficient in Figma

It's great if you have the following, it is not required:

- Previous internship experience is a plus
- External courses or certifications in UI/UX
- Has studied or experienced in designing for responsive websites, interaction designs, and information architecture

You will be compensated for this internship position RM 1,200 monthly.

We celebrate diversity at our company and are proud to be an equal opportunity employer. We do not discriminate on the basis of race, religion, color, national origin, gender, age, marital status, sexual orientation or disability status.

Please email jobs@pantas.com to apply with your resume and portfolio showcasing your work if you have one or any questions. If you are interested in learning more about us, visit pantas.com.
