Digital Hub Kuala Lumpur attracts, grows, and develops passionate people who will meaningfully impact the digital future of BASF. Come join us and be a part of our digitalization journey.

We are a rapidly growing digital hub that is always on the lookout for talented and motivated individuals to join our team. As part of our commitment to developing the next generation of tech professionals, we are offering an exciting opportunity for interns and fresh graduates to deposit their CVs to us and be considered for future suitable roles.

We are looking for candidates with a background in the following fields of study:

- **Computer Science**
- **Information Technology**
- **Software Engineering**
- **Computer Engineering**
- **Web Development**

As an intern or fresh graduate at our Digital Hub, you will have the chance to work on real projects and gain valuable hands-on experience in your field of study. Our mentorship program provides personalized guidance and support to help you grow and develop your skills, and you will have opportunities to network and collaborate with our talented and diverse team of professionals.

We understand the importance of nurturing and growing young talents and are dedicated to provide our interns and fresh graduates with the resources and support they need to succeed. Whether you are looking to start a career in tech or simply gain experience in your field of study, our Internship & Fresh Graduate Program offers a unique and exciting opportunity to grow and develop your skills in a dynamic and fast-paced environment.

If you are a driven, motivated individual looking to take the next step in your career, we encourage you to deposit your CV to our Digital Hub together with your availability period.

We will review all submissions and will be in touch if we have a suitable role for you. We look forward to hearing from you

As one of the world's largest chemical companies, BASF is on a mission to create chemistry with a sustainable future. The Digital Hub Kuala Lumpur, alongside four other Digital Hubs across the globe, are part of the Global Digital Services team,

which is the technology powerhouse driving our vision. As an integrated hub focused on digital growth and innovative business solutions, you will find many opportunities to create an impact here.

Whether you want to streamline processes with robotics automation, deep-dive into emerging technologies, or help tell the story of BASF – we have you covered. By investing in best-in-class tools and encouraging cross-functional collaboration, we empower our people to be curious and pursue any area of the business that interests them. The bottom line? We want you to bring your differences and spark positive evolutions in BASF.
